Oh and mine too. We are all there.”*

AKASHIC ALPHABET

Trenace Rose

AKASHIC ALPHABET offers a comprehensive, powerful lift for the soul and will appeal to conscious adults and intelligent young adults, whose intuition resonates. Many people facing imminent life-transition, their loved ones and caregivers, will find it comforting and elevating to the Spirit.

A thought-provoking series of vision narratives coupled with acutely sensitive illustrations painted by a Master Artist, conveys diverse cultural and spiritual philosophies from around the world, revealing a graceful connection of Oneness.

The *All are One* premise is based on an expanding theory by top-tiered physicists that all living matter exists in one, vast, quantum field of sub-atomic vibrations in the *akasha*, or space between matter and that within this virtual, invisible web of life-energy force, all are connected.

Like spokes to the hub of a cosmic wheel, all leading to Source, the compilation of vital, immortal clues has given rise to a unique format, an alliterative, akashic alphabet, tapped from the records of inner, ether consciousness.

This one-of-a-kind, research-based, fine art gift book is of the highest quality. With a 12" x 10.5" Hardcover bound in white linen Saifu cloth stamped in silver foil, a silk ribbon marker and specialty-weight pages, it offers a luxurious presentation.

Trenace Rose began her passionate exploration of various cultural beliefs at age 16, when introduced to transcendental meditation. Active in the Science of Yoga as a spiritual practice for over 24 years, her continued studies of the Tao, Qigong, Buddhism, Shamanism, Naturopathy, Holistic Medicine, Animal/Marine Mammal Communication and astral travel, have played key roles in the research and design of this enlightening book.
